

Payment Automation DOA (Delegation of Authority) Workflow

Workflow Explanation

Step 1 – Request Submission

The requester submits a payment request through **Microsoft Forms**.

Power Automate automatically:

- Captures form data
 - Creates a record in **Microsoft Lists**
 - Generates a tracking ID
 - Starts the approval workflow
-

Step 2 – Approval Routing

Power Automate checks the requested amount and determines the approver:

If within Amount 1

Approval request is sent to the **Level 1 Head** via:

- Microsoft Teams Approval Card
- Email Notification

If within Amount 2

Approval request is sent to the **Level 2 Head**.

If Amount 3

Approval request is sent to the **Level 3 Head**.

Approval status is updated automatically in **Microsoft Lists**.

Step 3 – FM Approval

After Level 1, Level 2, or Level 3 Head approval:

- Request is routed to **FM**
- FM receives approval notification through Teams and Email
- Decision is recorded in Microsoft Lists

If FM rejects:

- Workflow ends
 - Requester receives rejection notification
-

Step 4 – Cash Collection

If FM approves:

- Cash Collection team receives notification
 - Payment processing begins
 - Status is updated to **Completed**
-

Step 5 – Closure

Power Automate:

- Updates Microsoft Lists
- Sends completion notification
- Archives approval history for audit purposes

Business Benefits

- Eliminates paper-based approvals
- Faster approval turnaround time
- Full audit trail in Microsoft Lists
- Automatic email and Teams notifications
- Reduced manual follow-up
- Centralized approval tracking and reporting
